Mobile Horizontal Cement / Fly Ash Silo

Right Equipment for the Right Project !

DESCRIPTION :

The application designed "MAXMECH" Mobile Horizontal Cement / Fly Ash Silo System is the most efficient and versatile equipment available in different capacities i.e. 40, 60 & 100 Ton.

SALIENT FEATURES :

- No foundation required.
- High mobility for site transfer due to skid mounted design.
- Pollution free cement handling system.
- Literally no wastage of cement due to leakproof design.
- No cement godown required at site.
- Pressurized & manual loading of cement possible.

Technical Specifications

SR.	DESCRIPTION	MHCS-60
1.	<ul style="list-style-type: none"> • Storage Capacity For Cement • Storage Capacity For Fly Ash 	60 Ton 40 Ton
2.	Total Connected Load	23.5 H.P.
	• Horizontal Screw Conveyor	15
	• Vertical Screw Conveyor	7.5
	• Vibrator Motor	3Nos.x0.25=0.75
	• Vibrator Motor (For Dust Collector)	0.25
3.	Silo Accessories like; Dust Collector, Pressure Relief Valve, Level Indicator (Low & High), Vibrating Motors	Provided
4.	Overall Dimensions	
	• Length	9035 mm
	• Width	2500 mm
	• Height (W/o Vertical Screw Conveyor)	4075 mm
